1. Headquarters appreciates the effort described in the reference to increase the volume and detail of monthly operational reporting of the projects being run by the Albanian branch in Athens. We have no objections to the proposal made in the second reference that the various OBHUNT operations be reported separately.
2. The reports received for the 15 November to 15 December period were generally satisfactory. However, we would be grateful if the OBSERVANT monthly report would list the names of the persons interrogated by the agents and the number of reports prepared in the month by GADUNCE and ALBEAT. A one-word report on OBSERVANT activities, as was received for the 15 December-15 January period, is hardly an accurate description of the agents' activities and if taken literally would indicate that there is no reason for continuing the project.
3. We also feel that the various OBHUNT subprojects should be reported in even greater detail than was done in the new series of reports. We would like to have as much information as possible on the individual agents. SCAW-4063, Kapok 300, explains our requirements in this regard.
4. The suggestions above are intended to help improve an output which is, as stated in paragraph 1, already greatly improved. A little more effort in this regard should satisfy all concerned.
